

## FRONT-END DEVELOPER

in legal tech startup

(ReactJS)

(m/w/d)

### PROJECT OVERVIEW

Help us to complete the beta version of our intelligent and modular legal text editing and content management web application. Join us now on our way to the first full public release and beyond.

### OUR COMPANY

18points is a legal tech startup with an interdisciplinary team. We are aiming to build the next blueprint of legal text production and content management from the ground up and in accordance with the highest standards in UI and UX.

### TEAM ORGANIZATION

You will report directly to the CTO and CPO. You will contribute to the roadmap definition and work independently under agile scrum organization in 2-week sprints. You will also participate in remote meetings with the entire team.

### CHALLENGES

The front-end challenges that we face in the coming months revolve around the development of new features and user experiences to cover full use cases in the beta version of our legal notes and learning software.

### REQUIRED SKILLS

- A degree in Computer Science or similar preferred but not required. Student or self-taught welcome. Deepen and expand your skills as part of our team!
- Profound experience in web-standards (HTML, CSS, ...) and ReactJS.
- A plus is experience in: Next.js, TypeScript, Testing libraries for Integration- & End-To-End-Tests (jest, Selenium, ...), ProseMirror, TailwindCSS and RxDB.
- Language: English is required. German is a plus.

### WHAT'S IN IT FOR YOU?

- Gain valuable experience in a professional coding environment: dive into new technologies or deepen existing knowledge.
- Gain experience in a professional coding environment.
- Individual time commitment either full time or part time.
- Work in a dynamic small team and contribute your own ideas and thoughts.
- Work completely remote from anywhere at any time.
- Get the chance to become a member of the 18points team.
